## Administrative history / Biographical sketch

---

The Course Committee was first appointed by council on May 8th 1965, in order to manage funds the organisation were to receive from the Volkswagen Foundation in December of that year. The structure of the grant allocated funding for Courses and Workshops, the former providing laboratory training in new scientific techniques, and the latter being more informal meetings, bringing scientists together and offering them the opportunity to learn and present new discoveries. The remit of the department has expanded over time, now encompassing keynote lectures, conferences, training, and scientific training conducted in non-EMBO countries. EMBO also formed partnerships with other organisations to offer training courses, including symposia offered in collaboration with the European Science Foundation (ESF), and Plenary Lectures organised alongside the Federation of European Biochemical Societies (FEBS).

---

## Scope and content

---

This collection covers the activities of the Courses and Workshops department at EMBO from 1966-2024. The "Course Committee" series is mostly comprised of agendas, minutes, and correspondence and runs from 1966-2024. Paper records for the years up to 2010 are stored in the archive and subsequent years are stored as digital files.

The series concerning courses, workshops, and other events contain correspondence, funding applications, programs, lists of participants, coursebooks, financial and scientific reports, survey analyses, and posters. These materials run from 1982-2014, although references to previous events may be found in the Course Committee files.

The collection is comprised almost entirely of paper materials, but occasionally contain other materials such as floppy disks, CD-ROMS, and t shirts.

## Notes

### Arrangement

This collection is arranged at the file level. Materials after 2012 have not yet been appraised. The original file names, eg. C/1995/1, denoting the type of event, the year, and the number of the event in question, have been retained as identifiers.

### Related material

EMBO conducted joint courses with its sister organisation EMBL:

### Series C&W-1: Scientific Events

Date: 1979-2012 (creation)

Scope and content: This series comprises scientific training events funded by the Courses and Workshops program of EMBO. This series contains correspondence, funding applications, programs, lists of participants, coursebooks, financial and scientific reports, survey analyses, and posters. These materials run from 1982-2014, although references to previous events may be found in the Course Committee files. The collection is comprised almost entirely of paper materials, but occasionally contain other materials such as floppy disks, CD-ROMS, and t shirts.

This series is contained in the following boxes:

## Series C&W-2: Course Committee

Creator: Courses and Workshops Department

Date: 1966-2016 (creation)

Scope and content: This series comprises documents related to the Course Committee of the European Molecular Biology Organisation. It contains correspondence, meeting documents, and other documents related to the administration of the Courses and Workshops program.

Physical description: 8 boxes of paper materials.

Physical storage: Box: Box 47 - Course Committee 1966-1980

Physical storage: Box: Box 48 - Course Committee 1980-1983

Physical storage: Box: Box 49 - Course Committee 1984-1987
