## Summary information

---

<b>Repository:</b>	Archive of the European Molecular Biology Organisation
<b>Title:</b>	EMBO at Basel Life
<b>Reference code:</b>	BASEL
<b>Date:</b>	2017-2018 (creation)
<b>Physical description:</b>	1 folder of paper materials.
<b>Physical storage:</b>	Box: Box 264 - ESF - ESOF - Basel life & FEBS materials 2001-2018.

## Administrative history / Biographical sketch

---

Basel Life was an annual life sciences congress held in Basel, Switzerland, active from 2016 to 2019. Established as a continuation and expansion of the earlier MipTec conference, BASEL LIFE brought together academic researchers, clinicians, and representatives from the biotechnology and pharmaceutical industries. It combined scientific sessions with an industry exhibition and hosted the annual meeting of the European Molecular Biology Organization (EMBO) during its run. The event aimed to foster exchange between basic research and applied innovation in the life sciences.

---

## Administrative history / Biographical sketch

---

The European Molecular Biology Organization (EMBO) was founded in 1964 by a group of leading European scientists to strengthen research in molecular biology and foster collaboration across Europe. Its establishment was closely linked to the creation of the European Molecular Biology Conference (EMBC, 1969), which provided intergovernmental support for EMBO's activities. EMBO promotes excellence in the life sciences through initiatives such as the election of distinguished researchers to its membership, the awarding of fellowships and grants, and the organization of scientific meetings, workshops, and training courses. In 1974, EMBO played a central role in establishing the European Molecular Biology Laboratory (EMBL), an intergovernmental research institution. Today, EMBO continues to support life scientists at all career stages and advocates for science policy across Europe and beyond.

---

## Scope and content

---

This collection comprises materials relating to EMBO at Basel Life, the 2 conferences held in Basel, Switzerland in 2017 and 2018. It contains reports, abstract books, programmes, administrative and organisational documents related to the running of the conference.
